How to Read Manufacturing Dates

To uphold our promise of freshness and quality, the 8-digit manufacturing date of each product is shown on the side of its box in the order of Year, Month, Day (YYYYMMDD).

8-digit, YYYY/MM/DD format. Example shows product manufactured on 1 Aug 2009.

How to Read Freshness Periods

The freshness period (duration of optimum effectiveness) for each product, before and after opening, can be found on the product label on the back of its box.

Usage Amount : 20-cent coin each,
day & night
Freshness Period:
1 year from manufacturing date,
After opening / 60 days
Manufacturing date shown (Y/M/D)

Indicates the product's usage amount and freshness period, i.e. duration of optimum effectiveness, upon opening.

How to Locate and Use Freshness Stickers

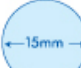

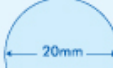

To encourage usage of our products within their freshness periods, each product has a freshness sticker included in the Japanese explanatory note inside the box or on the box itself.

Check the freshness period stated on product label. Take the date of product opening as Day 1, calculate and write the last day of freshness period on the sticker and affix it to the product.

Example shows freshness sticker for 60-day freshness period after opening of product, from 18 Sept till 16 Nov.
